UMIA AUTOMATED NAIL SYSTEM

Umia™ is the world's first AI-powered nail system that applies intricate art directly to human nails.

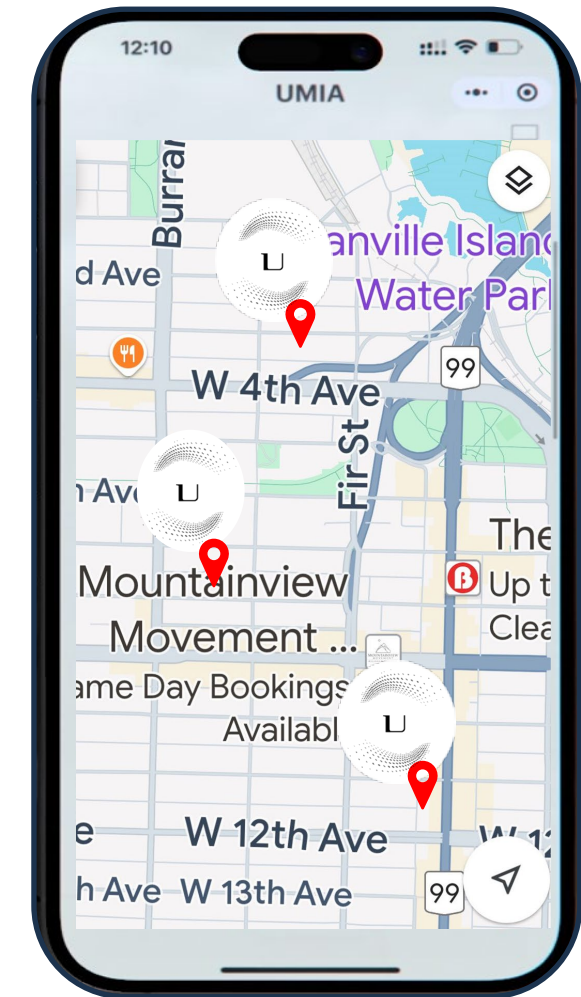

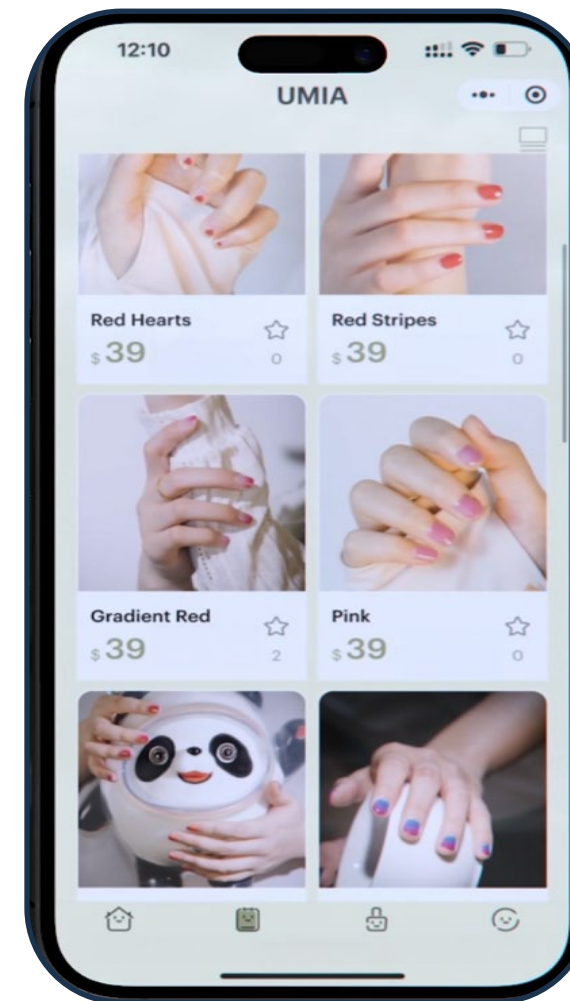

Delivering flawless, high-quality gel polish to both hands in just 20 minutes, Umia revolutionizes the manicure experience with its advanced automation and intuitive design.

UMIA

HOW IT WORKS

- Customer downloads the Umia App from app store.
- Whether it's a classic solid color or an intricate artistic pattern, Umia offers a growing library of nail styles for customers to choose from.
- Machine locator function in the app will guide customers through booking an appointment and directions to the machine.
- Consumer follows instruction on screen to start the self-serve process. Each nail is painted individually and takes about 90 seconds.
- The full process for both hands takes less than 20 minutes, making it a smooth and convenient experience.

INNOVATION

Advanced Computer Vision Module

Deep learning is used to recognize nail features such as width, length, curvature, shape and skin tone

Artisan Level Accuracy

An algorithm automatically adjusts each chosen design to accommodate the unique shape of each nail to ensure precise application ($\pm 0.01\text{mm}$)

Extended Wear Gel Polish

Durable, high-gloss gel polish specifically formulated for Umia™ machines to ensure a flawless, long-lasting finish

120,000+ Nail Data Points

5,000+ Test Manicures

19+ Awarded Patents

UMIA

NAIL ART LIBRARY

100+ colors and nail art to choose from upon release. Umia will continuously release new color and designs to keep customers engaged and excited about fresh styles.

VIP customers will have ability to customize designs.

Limited-edition colors and exclusive collaborations will be introduced as part of special promotions, creating hype and a unique, evolving Umia experience.
