

# What happens now? . . .

RADIANT  
— TAN —

*Take a breath! You have lots of time!*

Have a look around and familiarise yourself with the surroundings.  
You can see Disposables, the Tanning Booth, and a Screen on the Booth.

## First thing to do! . . .

Use the little **Stylus (Pen)** on the touch screen at the front of the machine  
Enter your **Height in cm.**  
Now select your desired tan colour - **Light, Medium** or **Dark.**

## Now You! . . .

1. **Remove your clothes and jewellery** - *Take you time the booth wont start without you!*
2. Make use of the **Disposables and please cover your hair** - *especially if it's coloured!*
3. Apply **barrier cream** to any dryness on knees, elbows and feet and **lots on palms of hands and knuckles.**
4. Take a pair of **sticky feet**, peel label and stand on them.
5. When you're ready , **open the door and step inside.**

## Getting Started! . . .

Place **feet on the indented spots** on the floor. - *The machine won't activate until you activate it!*  
Take note of the **screen inside**  
**Take up position** and when you're ready, and **press the start button.**

*The machine will give you enough time to get back into position so don't panic!*

## You will not need to turn around!

1. Make sure the **part of your body being sprayed** is in line with the **silver spray nozzle**
2. Just follow the verbal and screen instructions until the cycle is complete.
3. Warm fans will start at the end to dry you.
4. Please stand until this is completed.

## Your Done!

- Carefully step outside and use wipes provided to wipe palms of hands.
- Please dispose of everything you have used and leave the booth as found.
- Get dressed into loose clothes .

## For Best results!

1. Wait 6-8hrs before showering/exercising - the longer the better!
2. Moisture daily to prolong a beautiful natural tan!
