

COMPANY PROFILE

marzia CLINIC[®]
Italian Professional Beauty Care

Beauty is an act of responsibility:
towards the skin, towards people, towards the future.

AUTHENTIC BEAUTY, REAL RESPONSIBILITY

The story of Marzia Clinic originates from a simple yet profound vision: to create beauty in the most authentic way possible, with respect for the skin, for nature and for people.

It is a story of family, passion and artisanal dedication, which began in 1984, when my parents founded the company with the dream of uniting science, ethics and natural sensitivity into a new concept of professional skincare.

Since then, that vision has become a commitment carried forward across generations.

Today, I represent the second generation and proudly lead a company that continues to grow while remaining deeply faithful to its founding values.

Alongside me, my children are also embracing this philosophy with enthusiasm and awareness, believing in beauty as an expression of care, responsibility and respect.

I believe that true beauty originates from coherence: between what we promise and what we deliver, between who we are and who we aspire to become.

For this reason, every decision we make is guided by a tangible sense of responsibility towards people's skin, towards the planet we inhabit, towards the community that supports us.

We are a women-led company, creating products for women, with the goal of offering professional skincare that is effective, conscious and accessible.

Every Marzia Clinic product is the result of a genuine act of care for the skin and for nature, achieving a refined balance between purity and innovation, craftsmanship and science.

Becoming a Benefit Corporation and a certified B Corp® was a natural choice, not a destination. It reflects our daily commitment to proving that it is possible to build a business that generates real, human and sustainable value.

Today, as we look towards the future, our purpose remains unchanged: to cultivate beauty as an authentic, ethical and conscious act of care.

WHO WE ARE

BEAUTY AS A RESPONSIBILITY

Marzia Clinic is an Italian professional skincare brand founded in 1984, born from the vision of the founders of F.G. Cosmetics Group, a family-owned company that has represented excellence in Made in Italy cosmetic research and manufacturing for over forty years.

Today, Marzia Clinic stands as the identity core of F.G. Cosmetics: a brand that translates the company's scientific and manufacturing expertise into a path of conscious, responsible and results-oriented beauty.

Every product, treatment and educational program reflects a holistic philosophy that brings together nature, innovation and sustainability.

Thanks to in-house Research & Development laboratories, proprietary manufacturing and a certified, fully controlled supply chain, the brand ensures high standards of quality, safety and performance.

Over time, Marzia Clinic has successfully transformed its vision into a distinctive model, where science, education and a culture of wellbeing coexist and continuously reinforce one another.

Today, the brand is present in several countries worldwide and collaborates with professional beauty institutes that share the same values: ethics, expertise and respect for the skin and for the planet.

Marzia Clinic is far more than a cosmetic line: it is an Italian project of conscious beauty, born within a family, nurtured with passion and guided by a sense of responsibility that spans generations.

OUR VALUES

THE ROOTS THAT GUIDE US EVERY DAY

Our values are the heart of Marzia Clinic.

They are not slogans, but principles that are reflected in every action, every formulation and every business decision.

FAMILY

Our story is shaped by people, not only by products.

Marzia Clinic has grown as a reality built on authentic relationships, where teamwork, mutual trust and shared passion create continuity over time.

The family dimension is not simply a structure, but a way of being: an approach that brings together experience and humanity, tradition and vision, in every decision and every project.

Our strength lies in remaining true to our origins, while continuing to grow every day with the same spirit that marked the beginning of our journey.

WOMEN FOR WOMEN

We are a predominantly female team, guided by a shared vision: to enhance the beauty and strength of women.

Every initiative, every product line and every formulation is designed to respond to the real needs of women, at every stage of life.

We believe in empowerment, sisterhood and collaboration as powerful drivers of positive change, both within and beyond the company.

With women, for women: this is how we give meaning and value to everything we do.

RESPECT

Respect is our most profound value.

It means acting with awareness, choosing safe formulations, sustainable practices and relationships founded on ethics and responsibility.

Every decision, from research to production, is shaped by listening and by the desire to generate a positive and lasting impact on the skin, on people and on the planet.

For us, respect is the starting point of every expression of beauty.

OUR PROMISE

SHAPING WHAT WE BELIEVE IN

Every day, we translate our values into real, measurable and consistent choices.

Our promise is the commitment we continuously renew towards those who believe in Marzia Clinic: beauty professionals, clients who choose us, our collaborators and the community around us.

It is our way of doing business with awareness, transparency and dedication.

TRANSPARENCY & INTEGRITY

We believe that trust is built through clarity.

For this reason, we ensure full transparency in every formulation, clearly communicating the origin, function and safety of each ingredient.

Every product is developed within a controlled and traceable supply chain, where every phase, from research to production, is carried out in-house, with respect for people and for the environment.

PRIORITISING NATURE

For us, nature is an essential point of reference: every formulation choice begins there, and our responsibility ultimately returns there.

We select natural, pure and sustainable raw materials sourced from ethical and certified suppliers. Each active ingredient is chosen in its ideal environment of origin, where natural conditions - climate, light and soil - allow it to express its full potential.

Our formulation philosophy is rooted in purity: removing what is unnecessary and enhancing what truly benefits the skin. Every formula is the result of an essential and rigorous process that combines science, respect for skin physiology and care for the planet.

Naturalness is not a trend; it is our daily commitment.

RESPONSIBLE INNOVATION

Innovation is the driving force that inspires us to improve every day.

For us, innovation means combining research, expertise and sensitivity, placing science at the service of wellbeing and sustainability. Every formulation is born from listening to the skin and from the desire to create solutions that are effective, safe and respectful.

An approach that brings together technology and nature, intuition and method, giving life to a form of skincare that is constantly evolving, conscious and responsible.

THE PURSUIT OF MADE IN ITALY QUALITY

For Marzia Clinic, quality is not a goal, but the guiding principle behind every decision.

Within our laboratories, we design, formulate and manufacture each product in-house, overseeing every stage of the process, from the selection of raw materials to final quality control. This fully Made in Italy supply chain ensures traceability, efficacy and purity, expressing a culture of craftsmanship rooted in passion, precision and dedication.

A daily commitment that results in authentic quality, recognized at an international level.

ENHANCING SIMPLICITY

We believe that authentic beauty arises from simplicity and from respecting skin physiology.

We formulate essential, targeted products designed to integrate naturally into every routine, selecting ingredients for a precise and purposeful function. Each formula is developed to support the skin's ecosystem and preserve its natural balance, without forcing or over-correcting.

This approach brings together science, sensitivity and attentive listening, delivering authentic and long-lasting results in perfect harmony with the skin.

MAKING SKINCARE ACCESSIBLE TO ALL

We believe that everyone should have access to high-quality, professional skincare formulations that are safe, ethical and effective, without economic or cultural barriers.

Making beauty accessible means democratizing self-care and promoting a conscious, inclusive culture of skin health.

Our promise is a daily commitment to a more sustainable future, where innovation and nature coexist in harmony, and beauty becomes a universal language of respect and authenticity.

IL BIO CHE SCELGO IO®

PURITY BORN FROM A CONSCIOUS CHOICE

Our guarantee seal embodies a clear promise: to select the best of nature through the expertise of science.

“Il Bio che scelgo io” is more than a logo; it is our commitment to authenticity, a symbol that represents purity, quality and trust. It expresses our determination to offer ethical, transparent and truly effective skincare.

RESPONSIBLE GREEN HEART

FOR CONSCIOUS BEAUTY

Responsible Green Heart is not only our ethical manifesto, but also a working method that guides every decision we make: from research to production, from education to communication.

It is our way of translating respect into daily action, creating a real and measurable positive impact.

SKIN – RESPECT & SCIENCE

We consider the skin as a living ecosystem, to be protected and enhanced.

Our formulations are designed to work in harmony with skin physiology, delivering visible results while fully respecting its natural balance.

PLANET – RESPONSIBILITY & FUTURE

Every production choice is guided by a principle of concrete sustainability: low-impact materials, waste reduction and conscious packaging.

Because authentic beauty cannot exist without respect for the Earth that inspires it.

PEOPLE – VALUE & RELATIONSHIPS

We believe that people are at the heart of every business.

We build relationships based on trust, fairness and shared growth, from our partner beauty professionals to our stakeholders, and the community that supports us.

Responsible Green Heart is the heartbeat that connects everything we do: science that respects, nature that inspires, and people who give value to beauty.

It is our way of transforming responsibility into innovation, and ethics into beauty.

Certified

Corporation

Being a B Corporation is not merely a certification;
it represents a genuine
DAILY COMMITMENT THAT GUIDES EVERY DECISION
WE MAKE AND EVERY STAGE OF OUR WORK.

INNOVATION

WHERE RESEARCH MEETS VISION

Innovation has been the driving force behind Marzia Clinic since its very beginning.

A responsible, concrete and certified form of innovation that brings together science, nature and human sensitivity.

Every new creation takes shape within our in-house laboratories, where research is understood as an act of creativity, care and intuition.

FROM LABORATORY TO PRODUCT: EVERY STAGE MATTERS

Everything begins in our proprietary, in-house Research & Development laboratories, the scientific core of Marzia Clinic.

This is where ideas, technologies and formulations are conceived, defining our cosmetic identity.

Each product is conceived, formulated and refined entirely by our team, with direct control over every research phase: from the selection of raw materials to the sensory definition of textures, from formula development to pilot productions that precede industrial-scale manufacturing.

Every formulation is the result of a balance between scientific knowledge, formulation expertise and attentive listening to the skin, and is exclusively owned by Marzia Clinic.

Each creation is validated through stability testing, microbiological analyses and regulatory assessments, ensuring safety, efficacy and compliance with international standards.

PROCESS FLOW DIAGRAM

This fully in-house process, certified in accordance with Good Manufacturing Practices (GMP), is what makes Marzia Clinic a truly independent brand. It allows us to oversee every stage, from research to the final product, without intermediaries.

PATENTS & INTELLECTUAL PROPERTY

Our innovation is protected by international patents that testify to our ability to combine technology, craftsmanship and wellbeing.

- Patent No. D000019903 – Proprietary artificial intelligence algorithm designed to identify the most suitable cosmetic formulations for specific skin needs. It is a predictive system that integrates data science with advanced cosmetological expertise, creating a new model of personalized skincare.
- Registered Design No. 015066144-0001 – Handcrafted ceramic SPA ritual kit, developed in collaboration with Italian master ceramists. A project that celebrates craftsmanship and the tradition of Made in Italy, transforming the cosmetic ritual into a sensory and cultural experience.

CERTIFIED INNOVATION

We are recognized as an Innovative SME and have obtained ISO 56002:2021 certification, which acknowledges our ability to manage and develop innovation in a structured, measurable and sustainable way.

This achievement demonstrates that our research is never an end in itself, but is always focused on creating real value for the skin and for the environment.

For us, innovation means listening, evolving and improving. Every formulation is a promise of science at the service of wellbeing.

METHOD & EXPERTISE

A UNIQUE APPROACH FOR CONCRETE RESULTS

Every skin is unique.

For this reason, Marzia Clinic has developed an exclusive method, shaped by over four decades of experience and research, integrating high-performance formulations, professional protocols and targeted massage techniques.

A holistic approach that combines functional skincare with emotional skincare, because we believe that true aesthetic results arise from harmony between the skin, the mind and inner wellbeing.

MARZIA CLINIC METHOD

Our method is built on a perfect synergy:

- Products – high-performance formulations, developed in-house.
- Protocols – designed to enhance and amplify active ingredients.
- Manual techniques – that stimulate and reactivate skin physiology.

This integrated approach enables beauty professionals to customize treatments according to each client's specific needs, delivering sensory experiences and measurable results.

EXPERTISE & EDUCATION

Our strength lies in experience, and in the sharing of knowledge.

Through the Marzia Clinic Academy, we train beauty professionals worldwide, providing technical expertise, scientific knowledge and tools for professional growth.

Each course is a journey of evolution: from massage techniques to cosmetic marketing strategies, and from technical training to a holistic approach to wellbeing.

A PARTNER FOR BEAUTY PROFESSIONALS

Standing alongside beauty professionals means far more than supplying products. It means supporting their growth through technical assistance, communication tools, educational materials and personalized consultancy.

Marzia Clinic is a strategic partner, not simply a supplier: an ally that believes in the strength of women and in professionalism as a shared value.

Our method is the result of a coherent philosophy, where research, education and passion converge to create tangible and lasting results. Because behind every visible expression of beauty, there is profound knowledge.

SUSTAINABILITY & RESPONSIBILITY

BEAUTY THAT DOES GOOD

Being sustainable is not a goal; it is our identity.

In an industry where the word “green” risks becoming merely a slogan, Marzia Clinic chooses substance: an ethical, transparent and regenerative business model, capable of creating real value for those who care for the skin and for the world they live in.

From this vision comes our decision to become a Benefit Corporation and to obtain B Corp certification, recognitions that attest to our genuine commitment to a new way of doing business: more conscious, fair and sustainable.

Our sense of responsibility is translated into tangible actions that touch every dimension of our operations: from raw material sourcing to production, from corporate governance to the wellbeing of the people who are part of the company.

We act across three complementary areas, where every action contributes to a positive and measurable impact.

A MODEL OF POSITIVE IMPACT

We guide our decisions by following three fundamental pillars:

FOR THE PLANET

- Systematic reduction of overpackaging and promotion of materials with a lower environmental impact.
- Eco-sustainable formulations developed with raw materials selected according to criteria of safety, purity and traceability.
- Collaboration with international companies and associations dedicated to monitoring environmental impact and supporting ecosystem regeneration.

FOR SOCIETY

- Promotion of gender equality and inclusion across all areas of the company.
- Adoption of SA8000 certification, the international standard that ensures respect for human rights and working conditions, safeguards health and upholds the dignity of every person involved in the production chain.
- Support for social and community initiatives that generate real value, fostering cohesion and solidarity.

FOR PEOPLE

- A safe, serene and inspiring work environment.
- Continuous training and professional development pathways for all team members.
- Concrete support for aestheticians and beauty professionals, enabling them to grow alongside the brand while enhancing their expertise and their role in spreading a culture of conscious beauty.

OUR VALUE-DRIVEN PROJECTS

We believe that sustainability is a shared journey.

For this reason, we proudly support projects that reflect our vision of a fairer, more inclusive and regenerative future.

3BEE

Together with 3Bee, we have adopted a biomonitoring beehive and created an arboretum with 50 nectar-producing trees to support biodiversity and nourish over 500,000 pollinators.

An initiative that combines environmental protection, technology and reforestation, strengthening our path towards a regenerative business model.

LILT – ITALIAN LEAGUE FOR THE FIGHT AGAINST CANCER

Through our cosmetics, we support the projects of LILT Milano Monza Brianza, dedicated to supporting the most vulnerable people affected by cancer.

A gesture of care and solidarity that transforms skincare into an act of wellbeing and hope.

I BAMBINI DELLE FATE

We support the social projects of the organization founded by Franco and Andrea Antonello, dedicated to children and young people with autism or disabilities. An initiative that promotes inclusion, continuity and concrete support for families.

CITY ANGELS

We collaborate with this volunteer organization, actively engaged in supporting people in need, to promote a positive impact within our urban communities.

These initiatives, together with an ethical and transparent governance model, represent the pillars of our integrated sustainability journey, recognized by international certifications that attest to its strength and coherence.

For us, being sustainable means transforming every daily action into an act of respect: towards ourselves, towards others and towards the Earth.

Because true beauty is made of everyday gestures that generate respect, balance and hope.

CERTIFICATIONS

OUR SIGNATURE OF EXCELLENCE

Every milestone we achieve reflects our way of doing business: with responsibility, method and vision. The certifications obtained over time represent not only a recognition of our commitment, but also a guarantee of quality, safety and sustainability for those who choose Marzia Clinic.

They stand as concrete evidence that our values are translated into measurable and verifiable actions.

ISO 9001:2015 CERTIFICATION – QUALITY MANAGEMENT

Recognizes the company's ability to ensure efficient organizational processes, high standards and continuous improvement, guaranteeing that every product meets quality, safety and customer satisfaction requirements.

ISO 22716:2007 CERTIFICATION – GOOD MANUFACTURING PRACTICES (GMP)

Certifies the correct application of Good Manufacturing Practices in the cosmetic sector. It ensures traceability, safety and compliance at every stage of the production process, from raw material selection to packaging and final quality control.

BENEFIT CORPORATION

Marzia Clinic – through FG Cosmetics – has formally integrated public benefit objectives into its corporate charter, committing to generate a positive impact on people, communities and the environment, alongside economic profit.

VEGANOK EXCELLENCE CERTIFICATION

An ethical recognition certifying the production of cosmetics formulated without ingredients or derivatives of animal origin. The Excellence designation confirms that, in addition to vegan requirements, the company meets the highest quality and organic standards defined by the VEGANOK protocol.

INNOVATIVE SME

Official registration in the Innovative SMEs Register of the Italian Ministry of Enterprises and Made in Italy, a recognition reserved for companies that invest in research and development and possess proprietary patents and know-how.

SA8000 CERTIFICATION – CORPORATE SOCIAL RESPONSIBILITY

An international certification that assesses the company's ethical commitment to human resource management, ensuring fair working conditions, safety, respect for human rights and the protection of personal dignity.

ISO 56002:2021 CERTIFICATION – INNOVATION MANAGEMENT

Certifies the company's ability to structure and manage innovation in a strategic and sustainable way, applying principles of creativity, research and continuous improvement across all business processes.

CERTIESG® – CERTIFIED SUSTAINABILITY

An international assessment that measures corporate performance across the three ESG areas: Environment, Social and Governance. The AA rating recognizes the strength of our integrated sustainability model and the consistency between strategy, values and real impact.

LEGALITY RATING ★★★ – ITALIAN COMPETITION AUTHORITY (AGCM)

Awarded by the AGCM to companies that adopt the highest standards of ethics, transparency and fairness in business management. With a ★★★ score (out of 3), FG Cosmetics ranks among the most virtuous companies in the sector in terms of responsibility and corporate integrity.

B CORP®

An international certification recognizing companies that operate according to the highest standards of social and environmental impact. Being a B Corp® means using business as a force for good, generating value for communities, people and the planet.

UNI EN ISO 14001:2015 CERTIFICATION – ENVIRONMENTAL MANAGEMENT SYSTEM

Certifies the company's commitment to reducing the environmental impact of its activities through responsible and sustainable processes. It ensures compliance with environmental regulations, efficient resource management and a continuous improvement-oriented approach, confirming a production model that is attentive to the planet and future generations.

LOOKING AHEAD

Our journey does not stop here. We are currently working towards Gender Equality Certification, aimed at promoting the recognition of women's skills, professional equity and inclusion across all areas of the company.

ACADEMY & COMMUNITY

TRAIN, GROW, SHARE

Marzia Clinic is not only a brand, but an international community of professionals who share a common vision: to promote authentic, responsible and results-oriented beauty.

Through the Marzia Clinic Academy, we train aestheticians and wellness professionals with technical, scientific and managerial programs, transforming education into an experience of personal and professional growth.

TRAINING TO EVOLVE

The goal of our educational approach is to turn professionalism into a competitive advantage.

We offer comprehensive programs that range:

- from massage techniques and exclusive Marzia Clinic protocols,
- to advanced cosmetology and in-depth knowledge of active ingredients,
- to aesthetic marketing strategies, coaching and client communication.

Each program is designed to strengthen professionals' expertise, confidence and awareness, delivering concrete and long-lasting results.

Training takes place at our corporate headquarters, at Italian and international distributors' locations, or online through webinars and dedicated digital content.

To train, to listen, to support: for us, beauty is also an educational act.

Every aesthetic professional who grows with Marzia Clinic becomes an ambassador of a new way of caring: conscious, ethical and authentic.

Our Academy is a home of knowledge and sharing, where expertise becomes culture and shared knowledge becomes the most authentic expression of beauty.

THE STRENGTH OF THE COMMUNITY

Beyond education, we offer a true support ecosystem: a community of aestheticians and wellness professionals who share experiences, knowledge and inspiration.

In 2024, on the occasion of our 40th company anniversary, we launched “Le Marziane”, a digital community that today brings together over 1,500 wellness professionals in a space dedicated to exchange, continuous learning and direct dialogue with the company.

Marzia Clinic actively participates in major congresses, trade fairs and professional events, fostering ongoing dialogue between research, aesthetics and innovation.

Because growing together is the only way to truly evolve the professional beauty industry.

KEY FIGURES

OUR RESULTS SPEAK FOR US

The strength of Marzia Clinic lies in the consistency between values and results.

Behind every formula, every project and every certification, there are people, commitment and daily choices that generate real value.

KEY FIGURES

- Over 40 years of history and innovation in professional cosmetics
- 100% Made in Italy, from research to packaging
- 7 international certifications for quality, ethics and sustainability
- 2 registered patents
- 4 active social projects supporting the environment and local communities
- Presence in 15 countries worldwide through our distribution network
- 2,000+ partner beauty institutes sharing our philosophy
- Over 750 hours of training per year delivered to industry professionals
- 95% female workforce
- Zero compromises on quality, safety and transparency

Behind every number, there is a conscious choice.

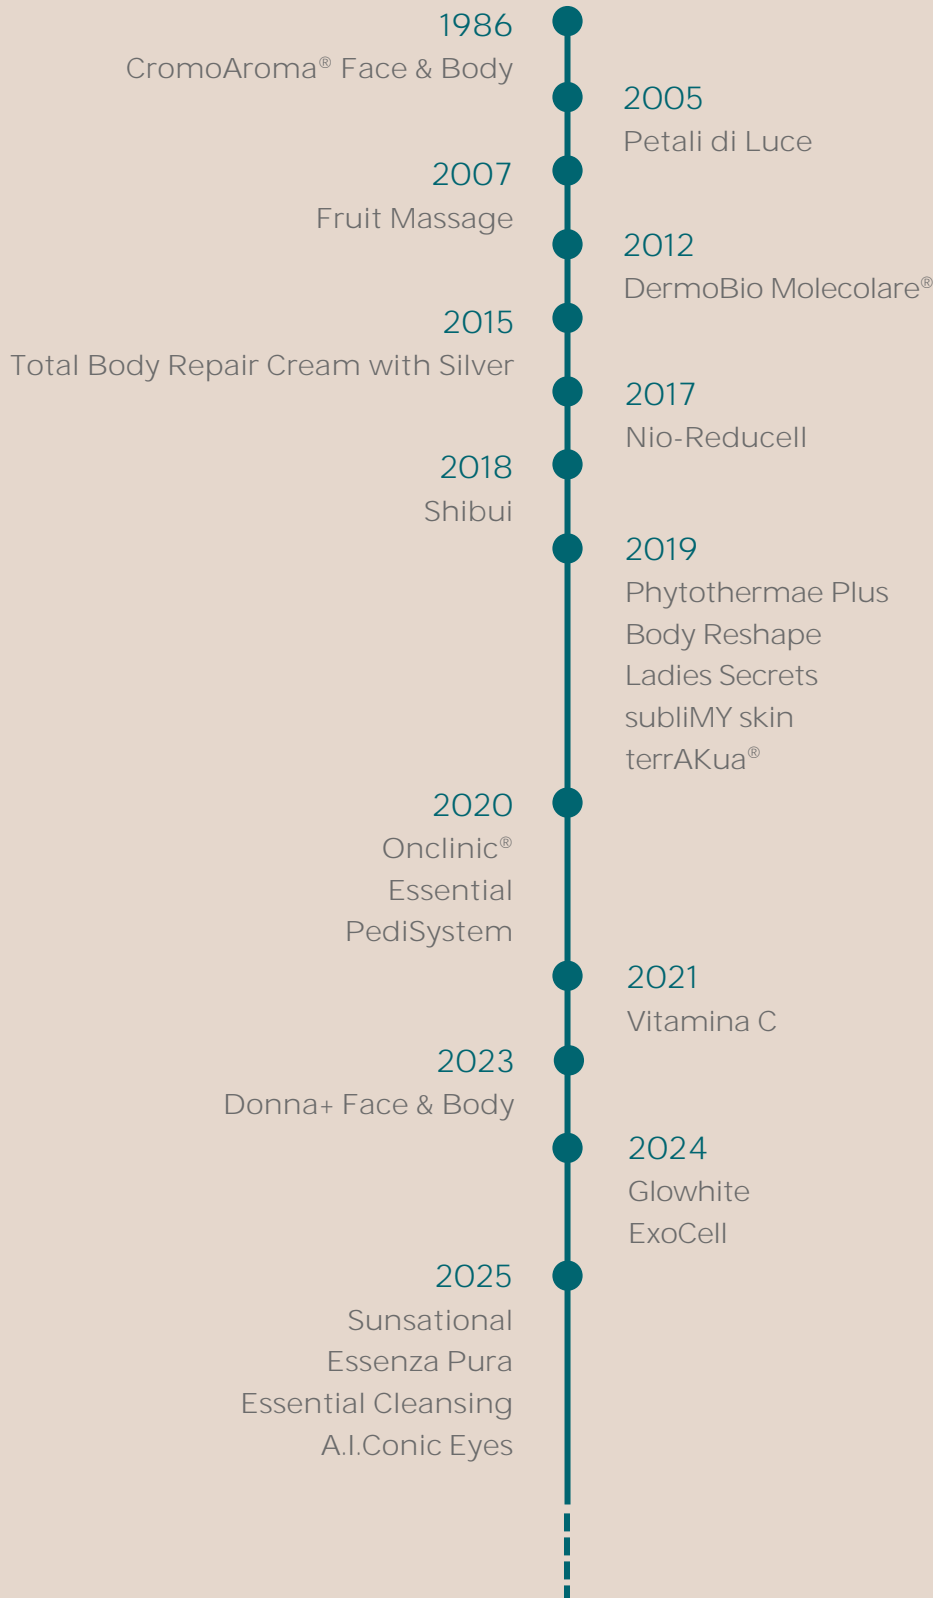

Behind every result, a promise kept.

Every formula, every gesture and every relationship is part of a single vision: to create beauty that lasts over time, because it is built on respect, transparency and care.

This is our way of doing business. This is Marzia Clinic.

CROMOAROMA FACE

HOLISTIC WELLBEING FOR YOUR SKIN

CromoAroma is the iconic Marzia Clinic line and a pioneer in holistic skincare.

A unique system that intertwines chromotherapy and aromatherapy, transforming professional treatments into a global wellbeing experience capable of acting both on the skin and on the underlying causes of its imbalances.

Five lines, five colours and twenty-four pure essential oils work in synergy to enhance each individual's uniqueness and to address the main facial skin concerns: dehydration, ageing, sensitivity, seborrheic skin and acne-prone skin.

With CromoAroma, the treatment becomes a personalized and deeply sensory ritual: a professional tool that harmonizes skin and emotions, enhancing aesthetic results and elevating the overall in-cabin experience.

DONNA+ FACE

THE MENOPAUSE SKINCARE EXPERTS

When menopause transforms the skin, DONNA+ is the dermocosmetic solution designed to support its natural evolution. The line was created to address the skin changes associated with declining estrogen levels, with formulations that combine scientific innovation, natural active ingredients and a holistic approach focused on women's wellbeing.

The professional Lifty-Plus treatment acts on the key mechanisms of estrogen-related ageing, thanks to natural actives and state-of-the-art dermocosmetic technologies. A complete professional pathway that helps facial skin regain definition, firmness and nourishment.

In a market increasingly attentive to the needs of mature skin, DONNA+ offers a specific and advanced proposition, designed for beauty professionals who wish to integrate targeted treatments and concrete results into menopause-focused protocols.

Bliss-Oil was selected by Beautystreams for the CosmoTrends 2023 report as one of the most innovative products dedicated to beauty and wellbeing during menopause, recognized for its ability to celebrate this life stage as a journey of renewal and femininity.

GLOWHITE

THE GLOW RITUAL THAT EVENS THE COMPLEXION

GLOWHITE is Marzia Clinic's answer for skin that appears luminous, even-toned and free from discoloration. Formulated to address hyperpigmentation of different origins, it combines advanced technologies with a holistic approach that restores balance, comfort and harmony.

From age spots to post-inflammatory hyperpigmentation, from sun-induced discoloration to hormonal changes, GLOWHITE works deeply to correct uneven tone and enhance the skin's natural radiance with total safety, in every season of the year.

More than a brightening treatment, it is a glow ritual that reveals the light already within you.

EXOCELL

REGENERATIVE AESTHETICS

EXOCELL represents the new frontier of non-invasive skin regeneration by Marzia Clinic.

Based on bio-identical, plant-derived and 100% vegan exosomes, the line naturally and precisely stimulates cellular renewal, restoring the skin's balance, vitality and resilience.

Thanks to their high bioavailability, exosomes deliver biofunctional active ingredients deep into the skin, maximizing efficacy and promoting a visible regenerative process.

A natural alternative to injectable solutions, EXOCELL redefines the concept of skincare through an approach that renews the skin from within, improving tone, uniformity and radiance.

ESSENZA PURA

FOR NATURALLY AUTHENTIC BEAUTY

Essenza Pura is Marzia Clinic's ritual of renewal: a regenerative pathway designed to restore the skin to its original balance. Sensory formulations and targeted gestures work in harmony to purify, soothe and rebalance the skin, while fully respecting its natural delicacy.

Created to support the skin in its natural renewal process, Essenza Pura removes impurities, accumulated stress and dullness, instantly restoring lightness, freshness and comfort. The complexion appears brighter, more even and deeply regenerated.

A modern ritual that goes beyond the concept of simple cleansing: a professional and home-care pathway that renews the skin day after day, preparing it to glow and revealing its most authentic purity.

ESSENTIAL CLEANSING

THE FIRST ACT OF LOVE FOR THE SKIN

Cleansing is the foundation of every skincare journey: it is the essential gesture that prepares, protects and allows the skin to fully benefit from every subsequent treatment.

Essential Cleansing was created to transform this daily step into an act of deep care, where gentleness and efficacy coexist in perfect harmony.

The line features soft textures, enveloping fragrances and formulations designed to respect skin physiology, removing impurities, make-up and environmental stressors without compromising the skin's natural barrier.

The range includes four complementary formulas: a velvety cream that envelops and softens even the most sensitive skin, a foaming gel that cleanses deeply while leaving a feeling of freshness and radiance, a gentle exfoliant that smooths and refines skin texture, and a silky micellar milk that removes impurities and make-up with exceptional delicacy.

Together, they create an essential, sensorial and high-performance cleansing ritual.

VITAMINA C

A SOURCE OF PURE ENERGY

Vitamin C is the luminous gesture that awakens the skin: an energizing skincare solution that delivers immediate vitality and natural radiance day after day.

Thanks to its antioxidant and pro-collagen action, it helps restore firmer, more elastic and visibly fresher-looking skin, reducing signs of fatigue and promoting a more even complexion.

Versatile and suitable for multiple skin needs and types, it illuminates, hydrates, protects against external stressors and helps reduce discoloration and dullness, preserving the skin's natural beauty.

PETALI DI LUCE

ANTI-AGING RITUAL

Petali di Luce is the anti-age line designed to restore radiance, elasticity and support to mature skin.

Its formulations are developed to guide the skin through a comprehensive pathway, addressing three fundamental objectives:

- Prevention: supporting the skin's vital functions and helping to counteract the early signs of ageing.
- Reduction: softening wrinkles, loss of tone and skin fatigue, while improving firmness and uniformity.
- Maintenance: preserving results over time by protecting skin quality and its natural radiance.

The line targets the main signs of ageing, delivering a complexion that appears smoother, more hydrated and revitalized.

For professional treatments, four specific and complementary protocols are available, formulated to stimulate senescent skin through synergistic active ingredients and dedicated manual techniques, ensuring targeted and long-lasting results.

SUBLIMY SKIN

TAILOR-MADE COSMETICS

subliMY skin is Marzia Clinic's tailor-made cosmetic line, designed to offer an advanced level of personalization and to address the unique needs of every skin type with precision.

An innovative approach that combines 117 active ingredients, muscle stimulation techniques, energy rebalancing and high-precision formulations to create truly customized professional protocols.

The synergy between targeted peels, functional concentrates and encapsulated actives allows the development of modular aesthetic pathways, capable of addressing different skin concerns and conditions through a focused and progressively enhanced action.

With subliMY skin, aesthetics becomes an art.

OUR BODY CARE LINES

BALANCE THAT ENHANCES THE SILHOUETTE

CROMOAROMA BODY

Holistic wellbeing for your skin

DONNA+ BODY

The menopause skincare experts

PHYTOTHERMAE PLUS

CROMOAROMA BODY

HOLISTIC WELLBEING FOR YOUR SKIN

CromoAroma Body transforms the aesthetic treatment into a personalized holistic ritual, where chromotherapy and aromatherapy work in synergy to rebalance the body and its energy.

A pioneering vision that combines cosmetic efficacy with deep wellbeing, enhancing attentive listening and the uniqueness of each individual.

The three core lines, harnessing the power of colour and the purity of essential oils, are formulated to act in a targeted way on cellulite, body contouring and toning.

They are complemented by two additional lines dedicated to fragile capillaries and detoxification, completing truly customized body protocols.

CromoAroma Body takes aesthetic care beyond treatment, creating an experience that regenerates, rebalances and restores a renewed sense of harmony to the body.

DONNA+ BODY

THE MENOPAUSE SKINCARE EXPERTS

Menopause brings profound changes to the body: weight gain, loss of tone, reduced elasticity and an overall sensation of diminished skin vitality.

DONNA+ Body was created to support this new phase with a targeted and conscious approach, specifically designed to address the needs of mature skin. Its formulations combine advanced research, natural active ingredients and a holistic vision of women's wellbeing, helping tissues regain firmness, elasticity and comfort.

The professional Belly-Plus protocol, dedicated to the abdominal area, and Booty-Plus, designed for legs and glutes, focus on critical areas typically affected during menopause, improving tone, lightness and silhouette definition.

At a time when the body is changing and requires new attention, DONNA+ Body offers a highly specialized pathway, ideal for professionals who wish to integrate specific, effective treatments genuinely oriented towards the wellbeing of women during menopause.

PHYTOTHERMAE PLUS

ADVANCED THERMAL NEUROCOSMETICS

Phytothermae Plus is born from the meeting of neurocosmetics and thermal tradition, transforming body treatments into a ritual that acts on the skin and its deepest perceptions.

Neurocosmetics activate signalling pathways between the epidermis and the nervous system, enhancing skin responsiveness and amplifying cosmetic results.

Designed to counteract cellulite, swelling and the sensation of heavy legs, the line harnesses natural active ingredients and thermal minerals to promote drainage, lightness and a firmer, more even-looking skin.

The formulas work on fluid retention and microcirculation, visibly improving tissue quality.

With enveloping textures and a multisensory approach, Phytothermae Plus offers a professional treatment that purifies, renews and remineralizes, delivering deep freshness and renewed vitality to the body.

BODY RESHAPE

ADVANCED RESHAPING NEUROCOSMETICS

Body Reshape is the neurocosmetic line designed to redefine the silhouette by activating signals between the skin and the nervous system, promoting a more dynamic, receptive and change-oriented response.

Created for those seeking to counteract localized adiposity, loss of tone and stagnation typical of critical areas, the line combines cutting-edge technologies with slimming active ingredients to support reshaping, drainage and the reactivation of skin metabolism.

The formulas work to mobilize fats, reduce the visibility of the “orange peel” effect and improve tissue firmness, accompanying the silhouette through its transformation journey.

With high-performance textures, neurocosmetic aromatic synergies and targeted professional protocols, Body Reshape offers a multisensory experience that unites efficacy and motivation: a treatment that renews, lightens and restores a more harmonious body shape along with a renewed sense of vitality.

NIO-REDUCELL

REMISE EN FORME

NIO-Reducell is a “shock” treatment designed to bring the body back into shape through a fast, targeted and extremely high-performance session.

Based on advanced niosomal technology, the line optimizes the penetration of active ingredients and prolongs their efficacy over time, delivering immediate results.

Developed to counteract early-stage cellulite, water retention, small localized fat deposits, swelling and the sensation of heaviness, NIO-Reducell works through an intensive approach that combines targeted exfoliation, cosmetic reshaping and deep drainage.

The formulas act on volume, swelling and microcirculation, improving the definition of critical areas and restoring a feeling of lightness to the legs from the very first application.

Thanks to its three-step professional structure completed in just 30 minutes, it represents the ideal solution for those seeking effective treatments within a reduced timeframe, delivering renewed wellbeing and naturally revitalized beauty to the legs.

The intimate beauty of femininity

BIOAROMAS

THE QUINTESSENCE OF NATURE

A collection of 24 essential oils, 100% pure and natural, extracted to preserve the most authentic essence of their source. Their low molecular weight allows deep penetration, delivering intense, targeted and long-lasting benefits.

Versatile and highly effective, they can be used to personalize CromoAroma treatments, creating aromatic synergies that make each experience truly unique.

Used through inhalation or environmental diffusion, they guide the emotional dimension of the treatment, creating the most appropriate sensory atmosphere for the aesthetic pathway.

Marzia Clinic Bioaromas transform every ritual into a complete multisensory experience, where the power of aromatherapy enhances both aesthetic results and overall wellbeing.

ESSENTIAL

YOUR ESSENTIAL ROUTINE

Essential is the line of indispensable products designed to support the skin in everyday gestures, providing hydration, protection and comfort.

Formulations created for simple beauty and authentic wellbeing, to be used daily as the foundation of every skincare ritual.

ONCLINIC

WHERE THE SKIN FEELS CARED FOR

ONCLINIC was created to support sensitive, reactive and easily irritated skin, offering a cosmetic response that is safe, gentle and deeply respectful.

The formulas are designed to support the skin during its most vulnerable moments, including periods during or after oncological therapies, restoring comfort, hydration and protection.

Each product is dermatologically tested on sensitive skin and formulated with highly tolerable soothing active ingredients, selected to calm irritation, reduce redness and restore the skin barrier.

Enveloping textures, free from aggressive substances, provide immediate relief and help bring the skin back to its natural balance.

ONCLINIC is more than a line: it is a care routine that welcomes, protects and restores confidence to the skin, day after day.

PEDI&MANI SYSTEM

HIGH-EFFICACY GENTLENESS

Pedi&Mani System is the line dedicated to the professional wellbeing of feet and hands, designed to deliver visible results through a natural and respectful approach.

The formulas replace the use of blades and aggressive tools with targeted cosmetic treatments capable of softening, smoothing and regenerating the skin safely and effectively.

Thanks to dermo-affine active ingredients selected for their soothing and regenerating properties, the line helps prevent calluses, dryness, thickening and imperfections, promoting softer, smoother and more comfortable skin from the very first applications.

Pedi&Mani System transforms manicure and pedicure into a ritual of beauty and prevention: an essential treatment that protects, restores and enhances the daily care of hands and feet, preserving their health and elegance over time.

PEDI&MANI SYSTEM

SUNSATIONAL

SUNCARE, BEYOND PROTECTION

SUNSATIONAL is Marzia Clinic's next-generation suncare line, designed to deliver comprehensive and responsible protection through advanced filters and state-of-the-art formulations that are gentle on the skin and respectful of the environment.

The products ensure highly photostable UVA/UVB protection, are water-resistant, reef-safe, and feature lightweight, sensorial textures, making them suitable even for the most sensitive skin.

The line embraces the *skinification* trend by combining sun protection with cosmetic performance: ultra-hydrating, antioxidant and reshaping active ingredients work in synergy to keep the skin luminous, elastic and toned, even during sun exposure.

Golden Vibes received the prestigious Cosmoprof Award 2024 as *Best Sun Care Product*, a recognition that celebrates the excellence and innovation of the SUNSATONAL line.

FRUIT MASSAGE

THE GOURMAND PLEASURE OF FRUIT

Fruit Massage is Marzia Clinic's gourmand line, inspired by the authentic freshness of freshly harvested fruit.

The formulas, enriched with real fruit juices with a high concentration of vitamins, antioxidants and phytoendorphins, awaken skin vitality and wellbeing, transforming the treatment into a sensorial experience that engages both skin and senses.

Phytoendorphins, extracted from selected botanical complexes, act as emotional boosters: they relax, soothe and enhance skin comfort, amplifying the pleasure of the massage and turning every application into a moment of deep harmony.

Soft, smooth textures inspired by artisanal fruit preserves take the form of vibrant, coloured gels that release natural, instantly recognizable fragrances.

During massage, they transform into a multisensory ritual that nourishes, softens and revitalizes the skin, restoring energy and suppleness.

Versatile and rich in natural active ingredients, Fruit Massage products can also be used as intensive facial masks, delivering immediate radiance and a pleasant sensation of freshness.

A sensorial experience that brings together emotion, colour and nourishment.

SOLID PERFUMES

THE ART OF FRAGRANCE ON THE SKIN

Solid Perfumes are aromatic butters that melt into the skin, transforming into a soft, nourishing veil. Their texture releases fragrance notes in a warm and enveloping way, accompanying the massage in an intense and refined sensorial experience.

PERFUMES IN EMULSION

Perfumes in Emulsion envelop the skin in a velvety fragrance, leaving a soft and long-lasting trail. Their silky textures echo the same aromatic notes as the Solid Perfumes, allowing the sensorial experience of the professional ritual to be recreated at home.

LADIES SECRETS

THE INTIMATE BEAUTY OF FEMININITY

Ladies Secrets is the line dedicated to women's intimate wellbeing, designed to provide protection, comfort and a discreet yet deeply felt sense of beauty.

Formulated with highly tolerable natural active ingredients, it ensures gentleness in daily care and support during moments when the skin requires extra attention.

Each product is designed to preserve physiological balance, improve tone and elasticity, and deliver a long-lasting sensation of freshness and comfort.

Light textures and respectful formulas accompany the skin with delicacy, enhancing its natural harmony.

Ladies Secrets is a gesture of gentle and conscious care: a routine that embraces women in their intimacy, restoring serenity, confidence and everyday wellbeing.

Our story continues:
towards a more ethical, more conscious, more authentic beauty.
