

# Dp SYNERGIST™

Advanced care for every skin journey

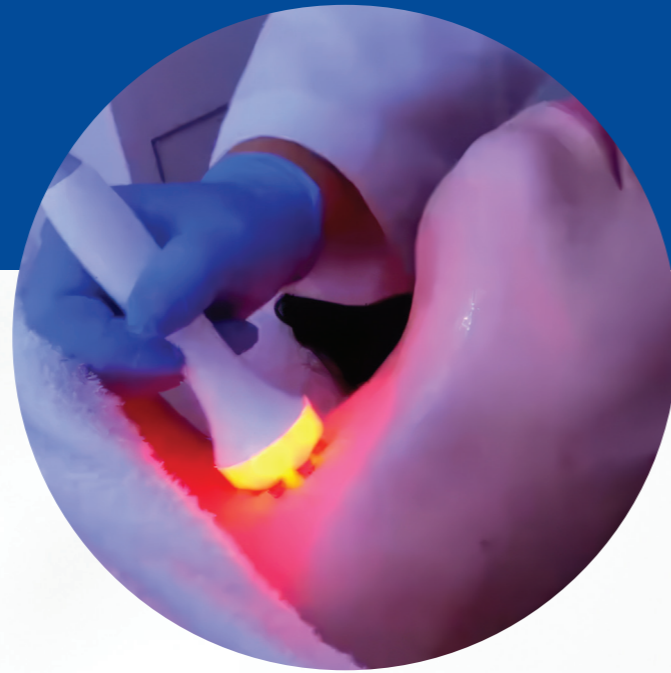

Customisable,  
multi-modality platform  
for superior skin results

The ultimate synergy of treatment combinations

**Dermapenworld**

## The all-in-one advantage your clinic needs

Dp SYNERGIST™ adapts to the needs of your practice and your patients, offering customisable modalities and targeted solutions for the most common skin concerns.

Attract new and returning clients with non-invasive, no-downtime treatments—ideal as an introduction to medical aesthetics, mini add-on treatments, or promotional offerings. Plus, optimise outcomes by prepping skin with Dp SYNERGIST prior to other aesthetic procedures, including Dermapen Treatments™.

## Help more patients achieve their skin goals

Experience the next generation in skin health with the ultimate all-in-one platform designed to deliver exceptional results through synergistic treatment combinations. Engineered for flexibility and performance, Dp SYNERGIST™ empowers clinics to address a wide spectrum of skin concerns with precision and ease.

## Why Dp SYNERGIST works for your business

### FLEXIBLE

Safe and effective for all skin types, helping you welcome a wider range of clients with confidence.

### CUSTOMISABLE

Tailor treatments to individual skin concerns for optimised results and client satisfaction.

### SMART SIMPLICITY

Intuitive design enables trained skin specialist-led treatments, freeing doctors' time and boosting clinic productivity and profitability.

### NON-INVASIVE

Offer comfortable, relaxing treatments with no downtime to encourage repeat bookings.

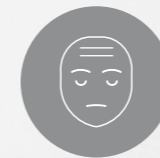

### SYNERGISTIC

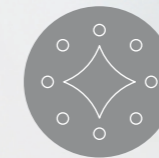

Perfect addition to any treatment, including Dermapen® microneedling protocols, to maximise revenue opportunities.

## Effective for

Skin rejuvenation

Deep cleansing  
and extraction

Pigmentation and  
tone correction

Hydration and  
barrier repair

Acne and  
congestion

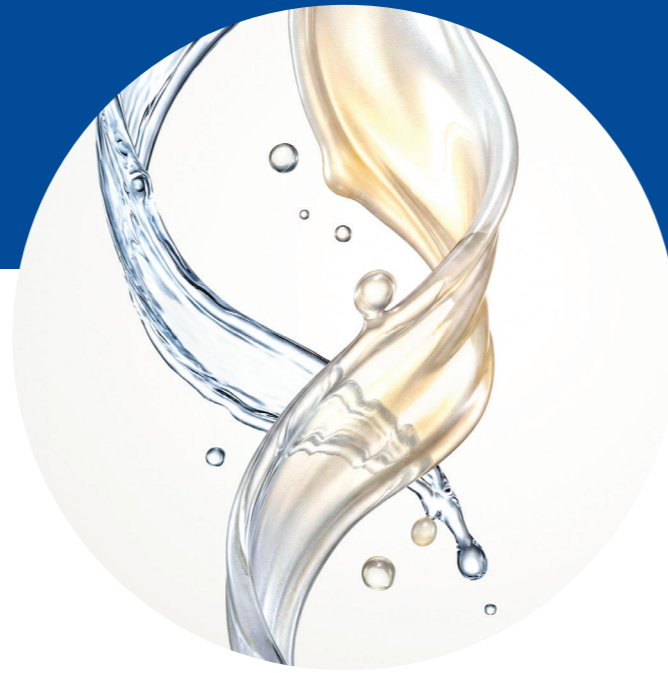

Fine lines and  
wrinkles

Skin fatigue  
and dullness

Dp SYNERGIST™ is designed for forward-thinking clinics that want to offer the latest in skin health innovation, with treatments suitable for every patient.

## The ultimate synergy of treatment combinations

Experience the power of multiple advanced technologies in one relaxing treatment. Dp SYNERGIST™ brings together the following modalities for truly transformative results.

### All-in-one versatility

#### Diamond tip microdermabrasion

Deliver medical-grade resurfacing with three interchangeable diamond tips.

#### Hydrogen water infusion

Transform tap water into hydrogen-rich water with 176x the antioxidant action of Vitamin C.

#### Ultrasonic skin spatula

Deeply cleanse and prepare skin for enhanced absorption of active ingredients.

#### Aqua tip serum infusion

The powerful dual-action approach infuses targeted serums while removing impurities.

#### Electroporation and LED

Opens intracellular channels to increase the penetration of bioactive compounds in Dp Dermaceuticals MESO-FUSE™ serums.

#### Micro-Stimulation for stimulation & rejuvenation

A combination of massage and gentle electrical pulses helps firm and tone the skin.

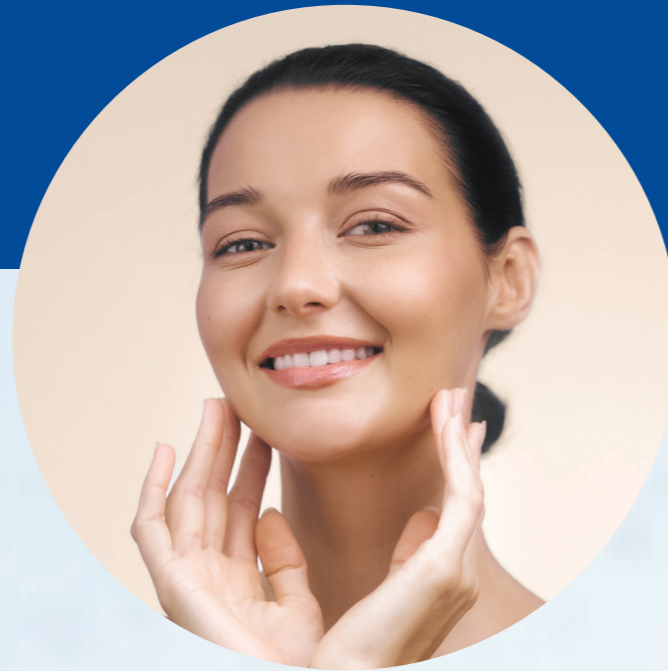

## Advanced serum delivery

Further customise your treatments with our synergistic Dp Dermaceuticals MESO-FUSE™ Bio-Infusion Serums that target common concerns while improving overall skin quality. Powered by innovative encapsulation technology, these serums ensure optimal stability, longevity, and penetration of key ingredients for maximum efficacy.

Serum	Targets	Helps
 <b>MESO-FUSE BRIGHT™</b>	Aged & sun-damaged skin	Provide antioxidant action and soothes skin. Improve skin texture and brighten complexion. Reduce signs of fatigue.
 <b>MESO-FUSE CLEAR™</b>	Acne & problematic skin	Unclog pores and reduce excess oil. Calm and soothe irritated and acne-inflamed skin. Restore optimal hydration and strengthen the skin barrier.
 <b>MESO-FUSE EVEN™</b>	Pigmentation	Reduce the appearance of photo-damage and age spots Brighten complexion and even skin tone. Restore skin's natural radiance.
 <b>MESO-FUSE CALM™</b>	Sensitive & dehydrated skin	Replenish the skin barrier and boost hydration. Reduce trans epidermal water loss (TEWL) Improve firmness & elasticity. Soothe redness and sensitivity.

## Dp SYNERGIST™ delivers real results

Deliver clear, measurable improvements in skin quality, tone, and texture with customisable modalities and targeted serums. Designed to address key skin concerns, Dp SYNERGIST™ empowers professionals to create tailored protocols to help more patients achieve more radiant skin.

### See the difference

## Integrates seamlessly into your practice

Easy to use, operator independent, and designed for busy clinics, Dp SYNERGIST™ makes it simple for every practitioner to get their patients incredible results. The multi-modality platform is designed for effortless integration into your clinic's workflow with 3 easy steps.

### How it works:

STEP  
01

Select the desired treatment modality and serum.

STEP  
02

Prep and perform treatment using Dp SYNERGIST's advanced handpieces.

STEP  
03

Complete the session with targeted serum infusion and finishing touches.

### Dermapen protocol synergy

Optimise outcomes by prepping skin with Dp SYNERGIST™ prior to other aesthetic procedures, including Dermapen Treatments™.
